Lawn and Soil Care
Tree and Shrub Care
Watering and Drainage

THE EINHELL GUARANTEE PROMISE.

We develop our products so that you can make everything possible. Our priority here is functionality, safety and quality. That is our promise and this is backed up by our guarantees too.

- **30 Day Money-Back Guarantee**
For 100% satisfaction with your Power X-Change device.
- **Power X-Change Battery Warranty**
Warranty extension for Power X-Change batteries to 2 years.
- **Einhell 2+1 Product Warranty**
Warranty extension for all Einhell products to a total of 3 years.

POWER X-CHANGE

EINHELL AND BMW i MOTORSPORT. ENABLING THE FUTURE NOW.

EINHELL IS MAIN PARTNER OF BMW i MOTORSPORT. INTO THE FUTURE WITH BATTERY POWER.

Since the 2018/19 season we present ourselves as a proud Main Partner of BMW i Motorsport in the ABB FIA Formula E Championship. The performance, endurance and durability figures are key factors for BMW i Motorsport when it comes to electromobility, but they are just as decisive for Einhell's cordless tools. With this partnership, we want to become even better for our customers and secure the pole position in terms of battery expertise in the DIY sector.

"Performance, endurance and durability: These are criteria that the batteries in Formula E racing cars have to meet and which also apply to our cordless tools. In cooperation with BMW i Motorsport as part of Formula E, we found the perfect platform to present ourselves as an innovative technology leader in the field of battery-operated tools and garden tools."

Andreas Kroiss, CEO of Einhell Germany AG

EINHELL AND FORMULA E. BATTERY EXPERTISE FOR FREEDOM OF CORDLESS OPERATION.

Since the beginning of the partnership, the BMW i Andretti Motorsport mechanics have relied on the cordless freedom of Einhell's Power X-Change products in their racing garage. This is where our cordless machines have proven themselves daily under the toughest of conditions. After all, performance, endurance, durability and innovation are considered the cornerstones of Formula E, but they are just as decisive for the refinement of Einhell's battery technology.

ADVANTAGES OF THE COLLABORATION. EINHELL AND ITS CUSTOMERS BENEFIT FROM WIDE COVERAGE.

- Perfect match of e-mobility and the Einhell Power X-Change rechargeable battery platform: Innovations that make the future possible
- Wide coverage thanks to the continuous growth in popularity of Formula E
- Additional multiplier effect thanks to the communication of BMW and other cooperation partners
- Growth in international awareness: worldwide staging of the races in the heart of world-famous metropolises

BMW i Andretti Motorsport driver
Maximilian Günther

E-Prix Marrakesh 2020

Roger Griffith, team principal of BMW i Andretti Motorsport,

BMW i Motorsport
Official Main Partner

CORDLESS FREEDOM. FOR TOOL AND GARDEN.

At last – no more too short or severed cables.

When you have no longer to worry about extension cables that are too short or sufficient sockets. When the device comes to the project instead of the other way round. When you simply insert the battery and are ready to go, whether it is a lawn mower, garden pump, rotary hammer or wet and dry vacuum cleaner. Than that is the feeling of cordless freedom.

LATEST TECHNOLOGY. PROVEN QUALITY.

So you can enjoy using your machine for a very long time.

The Power X-Change batteries are the centerpiece of the platform. That is why we use only the best components such as high-performance Li-Ion cells and our intelligent ABS battery electronics in the batteries. This makes our PXC battery one of the safest in the industry and ensures efficiency, reliability and durability. Stiftung Warentest (11/2020 issue) confirmed its quality in a comparison test with eight batteries from eight different battery platforms. The 2.0 Ah battery from the Power X-Change battery system from Einhell beat off stiff competition to emerge as test winner.

POWERFUL MACHINES. LONG-LASTING BATTERIES.

No matter how large your project – Power X-Change won't let you down.

Less power? No way! As a battery system for real enablers, our cordless machines offer up to 2700 Watt of battery power and 6 Ah of capacity, making them easily a match for corded machines! Whether you just want to hang a shelf or drill through a solid concrete wall, with Power X-Change you are equipped to meet any challenge with power and endurance.

1 BATTERY. 1000 POSSIBILITIES. FOR DIY ENTHUSIASTS AND HOBBY GARDENERS.

Just as versatile as you: Battery power for every situation.

Power X-Change is the first rechargeable battery system that provides hobby gardeners and DIY enthusiasts alike with an unrivaled selection of cordless tools. The PXC family already contains over 200 devices – and the number is constantly rising. Thanks to the versatile Power X-Change system, for instance, the electric kick scooter from GOVECS is "powered by Power X-Change".

ACTIVE BATTERY MANAGEMENT SYSTEM. INTELLIGENT ELECTRONIC CONTROL SYSTEM.

The computer-assisted Active Battery Management System permanently monitors and controls all the safety-related processes of the electrical components and associated hardware. This results in a whole range of advantages:

- ONLY ONE BATTERY
- LONGER BATTERY SERVICE LIFE
- MAXIMISED RUNNING TIMES
- INCREASED SAFETY

TWIN-PACK® TECHNOLOGY. 18 V + 18 V = 36 V.

If a device needs more power than provided by a single 18 V rechargeable battery, we simply add a second battery so we generate 18 V + 18 V = 36 V. We call that Twin-Pack® Technology.

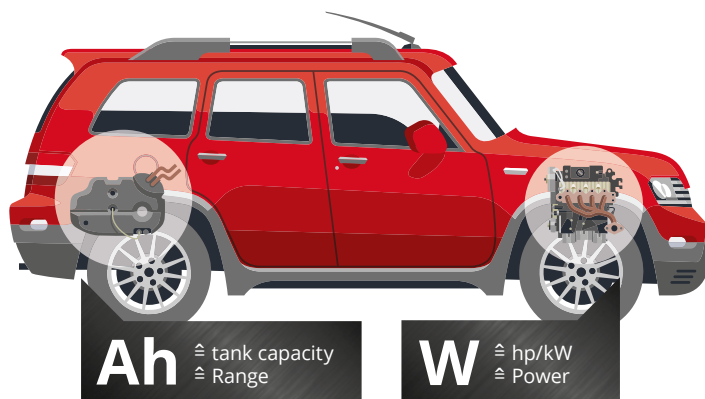

If the voltage (V) gets doubled, the power (W) gets doubled, too. Double Twin-Pack Technology in turn makes it possible to work for even longer still without the nuisance of recharging. In this case, four rechargeable batteries are used. When the power of the first two batteries finally runs out, the system automatically switches over to the two additional batteries.

POWER X-CHANGE PLUS. THE PLUS IN POWER.

Rechargeable batteries vary not just in terms of running time and weight. What is also critically important is the power that they provide. Power X-Change PLUS Technology makes more power available from the same number of cells, so that you can work with plenty of power even on challenging applications as well.

If, for example, you want to use your angle grinder for cutting work, the running time (see Ah rating) is generally not critical. Sufficient power, on the other hand, is. A car is a useful comparison. Uphill or when overtaking, more power, in other words more hp respectively kW, is needed.

BRUSHLESS ENERGY – MORE EFFICIENT WORK.

Various Power X-Change devices are equipped with brushless motors. They offer significant advantages compared to carbon brush motors:

- MORE POWER
- LONGER RUNNING TIMES
- LONGER SERVICE LIFE
- MORE COMPACT DESIGN
- MAINTENANCE-FREE

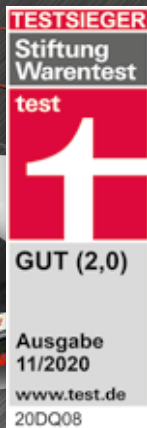

25%
+ more power*

50%
+ more operating time*

100%
+ more service life*

* Approximate values in comparison to conventional carbon brush motors

BATTERY EXPERTISE. CONVINCING. AGAIN AND AGAIN.

"We are incredibly proud to have done so well in a race with the very top competitors and to have been able to demonstrate our battery expertise so clearly. We are battery test winners."

Andreas Kroiss, CEO Einhell Germany AG

WE ARE TEST WINNERS. FOR STIFTUNG WARENTEST.

The test win goes to ... Einhell! In the comparison test performed by Stiftung Warentest (11/2020 issue) covering eight batteries from eight different battery platforms, the 2.0 Ah battery from Einhell's Power X-Change battery system beat off stiff competition. Our battery put in a convincing performance when it came to durability, handling and safety. Having already achieved top marks with Power X-Change machines in previous

Stiftung Warentest comparisons, we are all the more delighted that one of the batteries we have spent so much time developing and refining came out of the test on top. This confirms the decision we took years ago to bundle our expertise in the battery technology sector in order to continue expanding the leading role of our Power X-Change battery system.

POWER X-CHANGE ELECTRIC START

Easy-to-start petrol engine thanks to the electric start function with the assistance of the Power X-Change battery system – at just the push of a button:

- None of the hassle of starting up with a pull starter
- The rechargeable battery can also be used for other Power X-Change products

CORDLESS LAWN MOWERS

CENTRAL CUTTING HEIGHT ADJUSTMENT

User-friendly and easy cutting height adjustment

SIDE DISCHARGE

Perfectly suited for use in tall grass

DOUBLE TWIN-PACK TECHNOLOGY

Longer mowing without recharging

STEEL DECK

Exceptionally sturdy, robust and long-lasting

CORDLESS LAWN MOWERS

SOFT GRIP

Ergonomic and fatigue-proof operation

VARIABLE WHEEL DRIVE

Optimum adjustment of the speed to user requirements and the height of the grass

75 L NYLON CATCH BAG WITH FILL LEVEL INDICATOR

Optimum catching and filling characteristics

Cordless Lawn Mower
GE-CM 36/47 S HW Li

MORE POWER AND LONGER OPERATING TIMES

The brushless motor guarantees both maximum power and longer operating times per battery charge on top of all the other advantages

DOUBLE TWIN-PACK TECHNOLOGY

Double Twin-Pack devices have slots for two additional rechargeable batteries. If, for example, two additional batteries are inserted in the GE-CM 36/47 HW Li (see above) lawnmower, such that all four rechargeable battery slots are filled, you can mow double the area without recharging.

Example (GE-CM 36/47 HW Li):
Twin-Pack 2x 18 V = 500 m²
Double Twin-Pack
2x 18 V + 2x 18 V = 500 m² + 500 m² = 1000 m²

GE-CM 36/47 S HW Li EXPERT	
PXC battery voltage / capacity	4x 18 V / 4.0 Ah
Charging time	75 min
For lawn areas of up to approx.*	700 m ²

CORDLESS SCYTHES

ELECTRONIC SPEED CONTROL

Controlled and precise operation

SPINDLE-LOCK SYSTEM

Easy change of the cutting equipment

FRONT-MOTOR

Perfect power transmission and weight balance

MORE POWER AND LONGER OPERATING TIMES

The brushless motor guarantees both maximum power and longer operating times per battery charge on top of all the other advantages

WALL BRACKET

Easy and space-saving storage

SOFT GRIP

Ergonomic and fatigue-proof operation

SECOND HANDLE

The universally adjustable second handle (bike handle) enables the scythe to be guided safely and comfortably

CORDLESS SURFACE BRUSH

4-IN-1 FUNCTION

Cleaning/freshening up of stone, wood, artificial turf and corners and edges

INCL. WATER CONTROL VALVE

Economical use of water by manually regulation possibility directly on the machine

INTEGRATED GARDEN HOSE CONNECTION

Easy, complete and thorough wet cleaning in just one step

INTEGRATED SIDE BRUSH

The special side brush is suitable for perimeter work right up the edge

Cordless Surface Brush
PICOBELLA

ELECTRONIC SPEED CONTROL

Allows individual adjustment to every surface

ADDITIONAL HANDLE

with a practical integrated garden hose routing

TELESCOPIC ALUMINIUM TUBE

The telescopic aluminium tube can be adjusted to individual requirements for back-friendly operation

BRUSH CHANGE WITHOUT TOOLS

Brushes can be changed easy and quickly at the press of a button

FORWARDS/REVERSE BRUSH OPERATING

For better cleaning results, smooth brush guidance and perfect splash protection

CORDLESS HEDGE TRIMMERS

SWIVELING REAR HANDLE

The rear handle can be swiveled: optimum handling – for vertical and horizontal cuts without fatigue

ERGONOMIC FRONT HANDLE

The slimline front handle with several micro switches makes it comfortable to work with

METAL GEARING

Rugged metal gearing for efficient power transmission and long product life

CUTTINGS COLLECTOR

Perfect removal of the cuttings from the top of the hedge when trimming hedges is ensured by the practical cuttings collector

ALUMINIUM COVER

The product comes complete with a sturdy aluminium cover for protecting the blades

HIGH QUALITY BLADES

The blades made of laser-cut and diamond ground steel are designed for maximum precision and durability

IMPACT GUARD

The impact guard protects the blades and the work area against damage

CORDLESS PRUNING SHEARS

BELT CLIP

There is a belt clip for comfortable attachment of the shears to a belt or ladder

SOFT GRIP

Ergonomic and fatigue-proof operation

Cordless Pruning Shears
GE-LS 18 Li

HIGH-QUALITY BYPASS BLADES

for efficient cutting work up to 2.8 cm, depending on the hardness of the wood. The blade is easy and effortless to replace

IDEAL BATTERY POSITION

For user-friendly operation. The battery fits perfectly into the complete machine and does not interfere with any work using the shears

ON/OFF SLIDING SWITCH

The On/Off sliding switch activates/deactivates the item

SAFETY SWITCH

for safety while using the shears

STURDY PLASTIC COVER

for the blade for safe storage

CORDLESS GARDEN PUMP

2-STEP ECO SWITCH

2 power levels:

BOOST: Full delivery pressure with full delivery rate

ECO: Same delivery rate with reduced delivery pressure, so double the battery operating time

CONNECTIONS WITH METAL THREADS

Thread made of high-quality metal for a long service life for the thread and pump

CARRY HANDLE

For great mobility and flexibility

Cordless Garden Pump
AQUINNA 36/30

FROST PROTECTION

Water drain screw for draining residual water easily and for frost protection

SPLASH GUARD COVER

Protects the batteries against splash water

CORDLESS GARDEN PUMP

CORDLESS CLEAR WATER PUMPS

CONNECTION PIPE

Infinitely telescopic with practical holder and movable hose connection for individual positioning of the garden hose

Cordless Clear Water Pump
GE-PP 18 RB Li

LONG CABLE CONNECTION

Long cable connection for greater immersion depth

POWERFUL MOTOR

This generates a high delivery pressure of over 2 bar, enabling easy operation of the lawn sprinkler and garden spray gun

STABLE HOUSING

High-quality pump housing made of impact-resistant plastic

2-IN-1-PUMP

The long cable connection means the GE-PP 18 RB Li can be used as a **submersible pressure pump**, e.g. in a cistern, and with the adjustable connection pipe as a **rain barrel pump**

BATTERY OPERATION

Garden watering without a socket – powerful yet independent

BATTERY BOX

Flexible battery box with integrated cable storage holder and miscellaneous fastening options

4-6 AH MULTI-AH POWER X-CHANGE PLUS BATTERY

Thanks to MULTI-Ah technology, switching over from a 4 Ah battery to a 6 Ah battery is really easy and can be done with just the push of a button. The 4 Ah battery has a 3x longer total service life and is suitable for lighter applications (e.g. cordless lamp or cordless screwdriver). The 6 Ah battery offers the maximum running time for more capacity-intensive applications (e.g. cordless lawn mower or cordless wet and dry vacuum cleaners).

4 Ah ► **300%** more service life ¹⁾

6 Ah ► **50%** more runtime ²⁾

¹⁾ in comparison to every standard lithium-ion battery
²⁾ in comparison to the 4 Ah battery

WE ARE TEST WINNERS. FOR STIFTUNG WARENTEST.

The test win goes to ... Einhell!

In the comparison test performed by Stiftung Warentest (11/2020 issue) covering eight batteries from eight different battery platforms, the 2.0 Ah battery from Einhell's Power X-Change battery system beat off stiff competition. Our battery put in a convincing performance when it came to durability, handling and safety. Having already achieved top marks with

Power X-Change machines in previous Stiftung Warentest comparisons, we are all the more delighted that one of the batteries we have spent so much time developing and refining came out of the test on top. This confirms the decision we took years ago to bundle our expertise in the battery technology sector in order to continue expanding the leading role of our Power X-Change battery system.

EVEN MORE FREEDOM WITH POWER X-CHANGE. E-KICKSCOOTER ELMOTO KICK FROM GOVECS.

Einhell opens up its Power X-Change rechargeable battery platform! Together with E-Scooter manufacturer GOVECS, Einhell is helping to get ELMOTO KICK on the road, a road-legal E-Kickscooter with Power X-Change batteries.

With the new E-Kickscooter ELMOTO KICK from GOVECS, emissions-free scooting means you can leave your car at home or park slightly further away and simply jump on the scooter for the last mile.

ELMOTO KICK

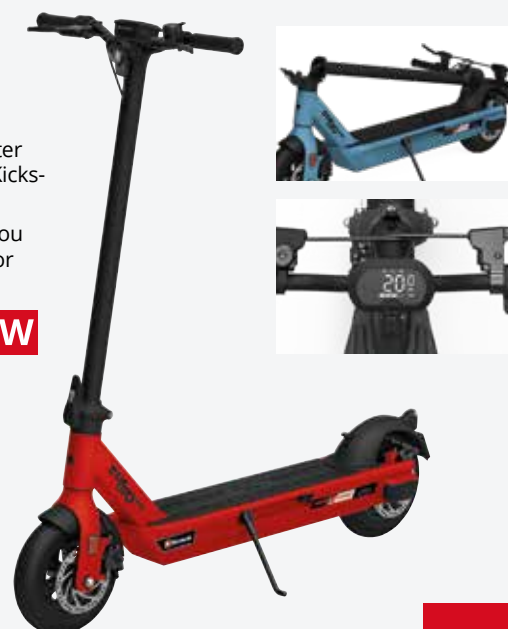

GOVECS

- Approval for road use
- 36 V
- V max.: 20 km/h
- Max. range: up to 20 km
- 2 hydraulic disc brakes
- Pneumatic tyres (10")
- Folding handlebar

Article only available without batteries / chargers
Art. Nr. 48.500.61

NEW

The ELMOTO KICK is
available in three colors:

BASIC PERFORMANCE – Upgrade recommended

Figures shown in lighter fields (for example see above) indicate that we recommend using a battery with greater power/capacity for full power and the appropriate operating time of the machine.

KEY TO SYMBOLS:

-  Max. number of starts per battery charge
-  Max. workable area per battery charge
-  Max. workable area per battery charge with 2 or 4 batteries (either 2 or 4 batteries can be inserted in the GE-CM 36/47!)
-  Max. operating time per battery charge in idle mode
-  Max. number of drill holes (depth 40 cm, mixed floor) per battery charge
-  Max. operating time per battery charge in idle mode (with blade)
-  Max. operating time per battery charge in idle mode (with line spool)
-  Max. operating time per battery charge in idle mode (with hedge trimmer)
-  Max. number of cuts through 70 x 70 mm square timber per battery charge
-  Max. number of cuts per battery charge through dry birch branches ø 15 mm
-  Max. number of cuts per battery charge through roundwood ø 60 mm

Suction / blowing: Operating time if the blowing or suction function is used

BOOST / ECO: Operating time in Boost or Eco mode

All stated values are maximum values. They were determined under standardised test conditions and may differ from the values achievable in everyday operation.

LAWN AND SOIL CARE

ROBOT LAWN MOWER

	GC-RM 500 CLASSIC
Battery voltage / capacity	28 V / 2.0 Ah
For lawn areas of up to approx.*	500 m ²
Cutting width	18 cm
Cutting height adjustment	infinitely / 20 - 60 mm / central
Suitable for slopes up to	35%
Impact, lift and tilt sensors	•
Brushless motor	•
Integrated carry handle	•
Number of batteries / number of chargers	1 / 1
Supplied with perimeter wire	130 m
Supplied with fastening hooks	190 pcs
Supplied with accessories	3 connecting clamps, 3 blades
Article number	34.139.30

* The stated area coverage is based on the assumption of ideal conditions

ROBOT LAWN MOWERS ACCESSORIES

	Robot Lawn Mower Garage
Items supplied	1 pc
Foldable	•
l x w x h	77.0 x 59.0 x 39.5 cm
Suitable for	all Einhell robot lawn mowers
Article number	34.140.24

4 006825 646443

EINHELL VORTEX TECHNOLOGY

The metal deck is specially designed for an optimum airflow. Thanks to the special shape, the rotating blade generates strong suction which straightens up the grass before it is cut. Only then is it cut and then shredded with great force in the optimized airflow and ejected afterwards.

Connecting a standard garden hose with quick-release coupling enables the lawn mower to be cleaned with ease by the water which is supplied in combination with the rotation of the cutting blade.

LUSHER GREEN THANKS TO MULCHING

Many Einhell lawn mowers can be converted to a mulch mower by fitting a mulching adapter.

The grass is shredded several times and remains on the turf, where it quickly turns to compost. This fertilizes the lawn, reducing evaporation. That protects the lawn from drying out and provides ideal living conditions for microbes, which provide for melioration of the soil.

Care should be taken to cut the length of the stems by just a third at the most. The cuttings will be shredded more efficiently and drop right through to the ground as a result, so they are less of an intrusion when using the lawn. It also contributes to the formation of side shoots in the lawn. The lawn becomes thicker and more lushly green.

CHAINSAWS

HAND GUARD AND CHAIN BRAKE

Kickback protection with instant reaction mechanical chain brake and large hand guard for safe operation

ERGONOMIC HANDLE POSITIONS

For good and safe handling in all work situations – when cutting either vertically or horizontally – the handles are ergonomically positioned

OIL FILLING OPENING

The large opening in the oil reservoir allows the chain oil to be topped up easily

Electric Chainsaw
GE-EC 2240

SOFT GRIP

Better grip, safe handling and ergonomic operation

METAL STOP CLAW

The rugged metal stop claw keeps the saw stable for added safety and working comfort

OREGON HIGH-QUALITY CHAIN AND BAR

FITTED WITH
OREGON
CHAIN AND BAR

CHAIN TENSIONING AND CHANGING WITHOUT TOOLS

User-friendly: Chain tensioning / changing and chainsaw adjustment without the need for additional tools

METAL GEARING

Rugged metal gearing for efficient power transmission and long product life

SOFT START

The soft start protects the equipment from overloading and provides enhanced user safety

WATERING AND DRAINAGE

WATERING + DRAINAGE

PROS AT A GLANCE

DRAINAGE

- Delivery of large quantities of water quickly
- Prevention of the worst water damage as far as possible by pumping out quickly
- High level of operational safety and reliability

WATERING

- Uniform garden watering
- User-friendly and safe handling
- Conserves resources and saves drinking water

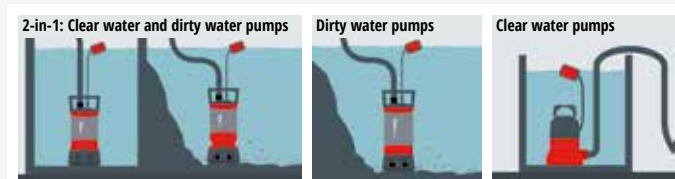

DOMESTIC WATER SUPPLY

- Water supply for the home and garden from alternative water reservoirs (cisterns, wells)
- User-friendly and safe handling
- Conserves resources and saves drinking water

■ DRAINAGE

Repumping/pumping out water – quicker and easier than ever. Pumping both clear water and dirty water with a high delivery rate is no problem with Einhell drainage pumps.

PRODUCTS

- 2-in-1 Multipurpose Pumps
- Dirty Water Pumps
- Clear Water Pumps
- Aqua Sensor Pumps

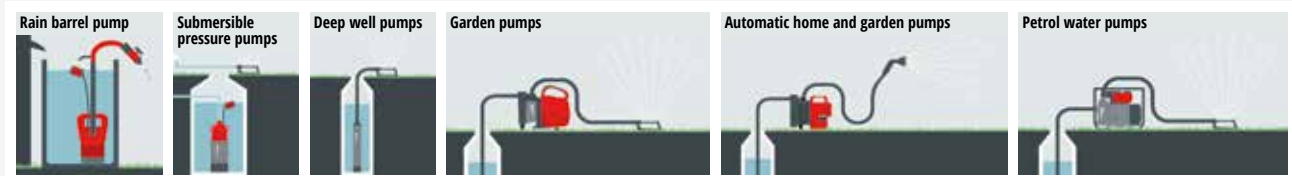

AREAS OF APPLICATION

- Pumping out flooded basements, garages or washing rooms
- Pumping out and repumping from pools, garden ponds, building pits and drainage channels

■ WATERING

To avoid wasting precious drinking water on watering the garden, alternative sources of water such as rainwater or water from cisterns can be used instead.

PRODUCTS

- Rain Barrel Pump
- Submersible Pressure Pumps
- Deep Well Pumps
- Garden Pumps
- Automatic Home and Garden Pumps
- Petrol Water Pumps

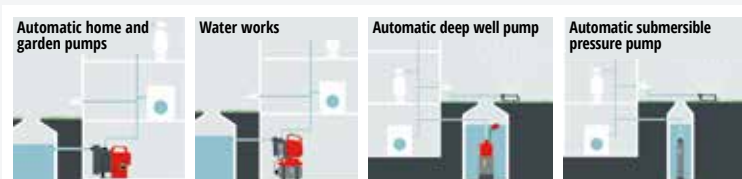

AREAS OF APPLICATION

- Operating lawn sprinklers and garden showers
- Pumping water from wells or cisterns
- Using rainwater from storage areas for watering

■ DOMESTIC WATER SUPPLY

Thanks to a wide range of uses, the home and garden can be supplied with service water automatically.

PRODUCTS

- Automatic Home and Garden Pumps
- Water Works
- Automatic Submersible Pressure Pumps
- Automatic Deep Well Pump

AREAS OF APPLICATION

- Water from alternative sources for supplying the home (washing machine, toilet flushing systems)
- Increasing the pressure in domestic water systems

'AQUA SENSOR' PUMPS

24 HOUR ROUND THE CLOCK PROTECTION

CARRY HANDLE

Sturdy and ergonomic carry handle with integral suspension eyelet for rapid operational readiness

PUMP HOUSING

The long-lasting pump housing made of impact-proof plastic with a stainless steel outer shell can be depended on to withstand the harshest treatment

LONG POWER CABLE

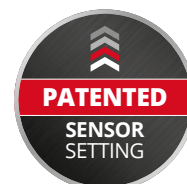

The extra-long connection cable (10 m) enables the pump to be used for very deep immersion depths too

HOSE CONNECTION

Universal connection is easily accessible on the top of the pump

PATENTED SENSOR SETTING

User-friendly setting of the three sensor starting heights or the continuous operation function

INTEGRAL AQUA SENSOR

The integral aqua sensor means that the pump has a slimline design, so it can be used in constricted spaces, e.g. in shafts

4 006825 598780

2-IN-1 MULTI-PURPOSE PUMPS

- 1 When the clear water function is activated: The pump starts when the water level is just 10 mm, and not many pumps can do that – plus it works in shallow water as low as 1 mm, i.e. just a quick wipe over at the end and the flooding is quickly forgotten
- 2 When the dirty water function is activated: Even large particles of dirt such as stones and lumps of sludge with diameters up to 20/30 mm (depending on the model) can be suctioned up without difficulty
- 3 2-in-1 function: Evacuation of clear water and wastewater with only one pump!
- 4 Patented suction level control: a simple rotary motion at the pump foot switches the function to suctioning for either shallow clear water or dirty water with large foreign particles

SUBMERSIBLE PRESSURE PUMPS DEEP WELL PUMPS

AUTOMATIC FUNCTION

The equipment switches on automatically when water is required and then off again

4-STAGE IMPELLER SYSTEM

The impeller system is of 4-stage design and therefore supplies extra-high delivery pressure

HIGH-QUALITY MECHANICAL SEAL

The high-grade mechanical seal reduces friction and wear and therefore guarantees long service

HOSE CONNECTION WITH STAINLESS STEEL INSERT

The hose connection with stainless steel insert is really robust and long-lasting. Being ideally positioned for access at the top, it makes the pump suitable for use in constricted shafts

PUMP HOUSING

The long-lasting pump housing made of rust-proof stainless steel can be depended on to withstand the harshest treatment

SURFACE PUMPS 'PLUS'

**EASY PUMPING.
WITH THE NEW SURFACE PUMP GENERATION FROM EINHELL.**

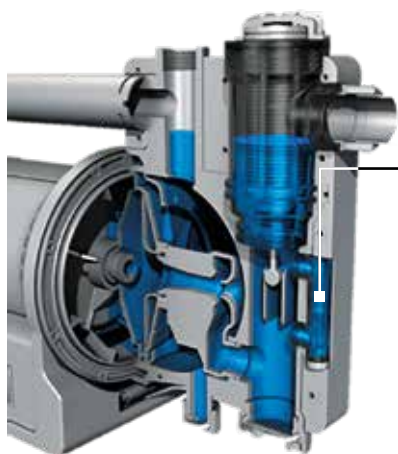

■ INNOVATIVE FEATURES

- Fast and easy installation as well as quick error detection thanks to status indicators
- Long life, low maintenance and exceptional protection thanks to special safety mechanisms

■ HIGHER PERFORMANCE BY LESS ENERGY CONSUMPTION

The new **Garden Pumps 'PLUS'**, **Automatic Domestic Water Systems 'PLUS'** and **Water Works 'PLUS'** concept consists of 2 parts:

1. STATUS INDICATORS

EXPERT Version

■ WATER FILLING INDICATOR

Before starting-up the pump for the first time it needs to be filled with water to secure a flawless intake procedure. Thanks to the sight glass the customer can see at first sight if there is already enough water filled into the pump.

CLASSIC Version

■ PRE-FILTER

Easy to clean and easy to change for optimal pump performance.

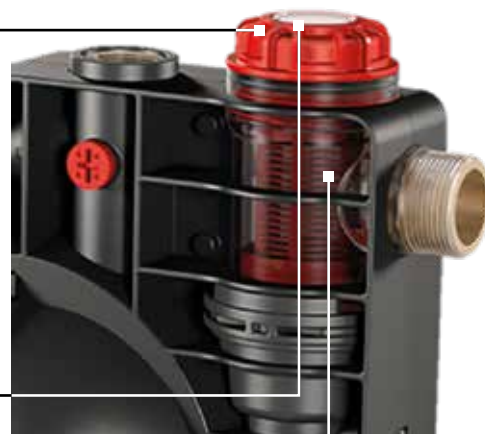

■ BIG WATER FILLER SCREW

Big water filler opening through which it is very easy to fill water into the pump.

■ SUCTION INDICATOR

The suction pressure gauge in the cover of the water filling opening provides information about the suction height/suction pressure and any possible suction problems.

■ DIRT INDICATOR

Due to transparent material around the pre filter it can easily be seen if the filter is dirty and needs to be cleaned or even replaced by a new one.

* Patent pending

2. SAFETY AND PREVENTION

SCALDING PROTECTION

If there is a blockage on the pressure side and the pump continues working, the water that remains in the pump will get hot. To prevent the customer from scalding himself with the hot water when checking the pump, the scalding protection shuts off the pump.

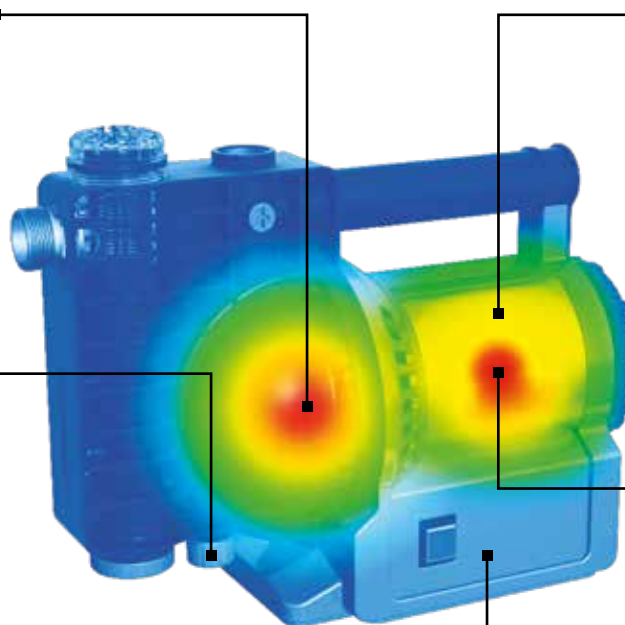

FROST PROTECTION – WATER DRAIN SCREW

Often customers forget to empty the pump before winter and the frozen water destroys the pump. To hinder the water to freeze there is a convenient water drain screw with which the water can be released very quick.

WATER FLOW RECOGNITION SENSOR

Sensor that measures the water flow (LEDs).

-  **Red:** Failure – no water in the pump
-  **Yellow:** Flow Detection
-  **Green:** Pump runs normal

DRY RUNNING PROTECTION

If the pump is not able to suck water any more (e.g. empty water source) the dry running safety recognizes this and stops the pump. It tries to start the pump again and if there is still no water getting sucked it stops again and shuts off the pump. This prevents overheating of the pump and so a overheating of the engine.

THERMO PROTECTION

To prevent severe damages, the integrated thermo switch cuts off the pump when the engine overheats.

GARDEN PUMPS 'PLUS'

SUCTION INDICATOR

provides information about the suction height/suction pressure and any possible suction problems

HIGH-QUALITY THREAD

Long service life for the thread and pump

DIRT INDICATOR

It is easy to see whether the filter is dirty and may need cleaning

WATER FILLING INDICATOR

The window tells you at a glance whether and how much water has already been filled in the pump

FROST PROTECTION

The water drain screw makes it easy to completely drain the pump to make it safe from frost

ADDITIONAL PRESSURE CONNECTION

enables a number of consumers to be operated at the same time

Garden Pump 'Plus'
GE-GP 1246 N FS

DRY RUNNING AND SCALDING PROTECTION

The Flow Sensor measures the water flow permanently and thereby prevents damage to the pump

AUTOMATIC HOME AND GARDEN PUMPS 'PLUS'

SUCTION INDICATOR

provides information about the suction height/suction pressure and any possible suction problems

HIGH-QUALITY THREAD

Long service life for the thread and pump

DIRT INDICATOR

It is easy to see whether the filter is dirty and may need cleaning

WATER FILLING INDICATOR

The window tells you at a glance whether and how much water has already been filled in the pump

FROST PROTECTION

The water drain screw makes it easy to completely drain the pump to make it safe from frost

ADDITIONAL PRESSURE CONNECTION

enables a number of consumers to be operated at the same time

DRY RUNNING AND SCALDING PROTECTION

The Flow Sensor measures the water flow permanently and thereby prevents damage to the pump

Automatic Home and Garden Pump 'Plus'
GE-AW 1042 FS

LED DISPLAY

The LED display provides at-a-glance information about the status of the pump
